

Open Science Compliance Form

The purpose of this form is to allow authors to inform to what extent their manuscript complies with Open Science communication practices.

Preprints

Was the manuscript made available as a preprint?	
<input type="checkbox"/> Yes	Preprint server name: _____ Preprint DOI: _____
<input type="checkbox"/> No	

Availability of research data and other materials

Authors are encouraged to make all content (data, computer programs and other materials) on which the manuscript is based available before or at the time of publication. Exceptions are allowed when there are legal or ethical issues. The objective is to facilitate evaluation of the manuscript and, if it is accepted, contribute to preservation and reuse of the content and to the reproducibility of the research.

Is the content underlying the text of the manuscript already available in its entirety and without restrictions, or will it be at the time of publication?	
<input type="checkbox"/> Yes	<input type="checkbox"/> The content will be available at the time the article is published. <input type="checkbox"/> The content is already available. Titles and respective URLs, access numbers or DOIs of the files containing content underlying the text of the article (use one line for each piece of information): _____ _____ _____ _____
<input type="checkbox"/> No	<input type="checkbox"/> Data available if requested by the referees. <input type="checkbox"/> After publication, the data will be available upon request – conditions justified in the manuscript <input type="checkbox"/> The data cannot be made publicly available. Justification: _____ _____ _____

Transparency in peer review

Do the authors consent to publication of the peer review evaluations of the manuscript?	
<input type="checkbox"/> Yes	
<input type="checkbox"/> No	
<input type="checkbox"/> Maybe	To be defined later.
